From: Tim Davis, Recreation Commission Chair

CC: Kris Fogerty, Recreation Director

Re: Millis Recreation Pickleball Sound Mitigation

The Millis Recreation Commission, with support from the Recreation Director, respectfully request funding for the installation of sound mitigation equipment and plantings. These items will be utilized at the pickleball/tennis courts on town property, located behind the Clyde Brown Elementary School.

In the Spring of 2021, concerned residents and abutters of the facility came forward to the Board of Selectman, Recreation Department, and town to express concerns over the noise these courts are causing. This was done in a public meeting. While the courts are used for tennis as well, it is the pickleball play that caused the most disruption due to the sounds produced when played. The Recreation Commission and Department have agreed to take on this project to address the concerns of our residents.

Since their completion, our courts have seen tremendous use – both with organized and recreational play. In 2021 alone, the Recreation Department organized league play and lessons for nearly 400 community members. The public however, uses these courts for hours by the hundreds. Court space is hard to come by on the weekends with crowds using the facility from sun-up to when the lights are turned off.

The proposed project will install a ^{Acoust. blok} wind screen on the chain link fencing to ~~both~~ block the wind, but the sound that travels to the surrounding neighborhoods. In addition, to beautify but add another layer of mitigation, landscaped plantings and beds will be established, and provided by town. These plantings will consist of shrubbery and trees ranging six to eight feet in height. Specifically, arborvitae and blue spruce trees. These natural barriers are proven methods of sound absorption.

We believe strongly that this proposal will both address the concern of residents while offering a physical enhancement to the community members who frequent the courts.

Item	Cost
Acoustiblok	\$19,122.16
10% Contingency	\$1,913
Total	\$21,035.16
